# "Printzess Week"

## The Nation's Style Event

An event—a Fashion Event—that no style-loving woman can afford to miss. "What can Printzess Week be?" We will tell you.

When we opened the great boxes in which were packed the finely tailored Printzess Coats and Suits which have just reached us—when we lifted them from their snug, soft wrappings and saw their beauty of style-line, their perfect fabrics, their delightful colorings and wealth of detail which have made them perfect, we said:

"These garments shall be given a reception. Coats and Suits like these—radiant with Fall modishness, rich with quality and priced so reasonably as these, deserve a special showing of their own."

And we know that every one of our good store friends will extend on their own part, a warm reception to garment values like these. For until these garments are carried away by happy purchasers, these Printzess Coats and Suits will offer the one greatest buying opportunity of the season.

You will do well to arrange your engagements accordingly, and plan to spend a little time in our garment section during PRINTZESS WEEK.

**QUALITY**

**That is the Real Secret of the 3400 r.p.m. Chalmers Popularity**

Whenever you see the Chalmers trade mark you always see the phrase "Quality First." Whenever you think Chalmers you think "Quality." And if you have been reading my ads or have been in my salesroom, you are impressed with the fact that the 3400 r. p. m. is a Chalmers car of unusual quality.

I've often said that it is, in my opinion, the greatest car the Chalmers Company has built. And I have an excellent reason for saying this. It is a step ahead of any preceding Chalmers because it performs a shade better.

The Quality in the new Chalmers is the kind of quality that tells on the road and tells wonderfully.

Now it is just this exceptional quality, just this shade of improvement that has brought Chalmers sales and production ahead in leaps these 12 months past.

I don't think the men in charge of affairs at the Chalmers factory realized what they had in the 3400 r. p. m. Chalmers. At any rate they underestimated the demand. They built more than they had ever produced in any previous season, 'tis true, but still not enough.

The first making order was snapped up quickly. Then came a second lot. These went just as fast.

Now the factory is building the third lot and I understand that Chalmers has no intention of stopping even there. Quality it was that caused this unprecedented demand. Chalmers certainly have the right idea in building cars. "Quality First."
